WHIRLPOOL BRAND
COMMERCIAL WASHERS

DIRECT DRIVE SYSTEM
27” heavy-duty commercial washers feature the Direct-Drive, No-Belt washing system for greater reliability, reduced down time and increased profits.

LARGE CAPACITY WASH BASKET
Ideal for handling family size loads!

PORCELAIN FINISH
Porcelain top and lid finish resists rust, chipping and scratching.

FRONT LOCK READY
Factory installed lock blank provides a visual vandalism deterrent. To further discourage theft, order optional front panel lock assembly (part #358290) for the added security of tying the front and top panels together.

HIGH AND LOW WATER LEVEL
Reduce water consumption to 23.22 gallons per cycle!*  
*Based on low water level, 3 lb. load

TRIPOD SUSPENSION
Sturdy tripod-suspension with active liquid filled balance ring reduces product weight while balancing commercial size laundry loads.

RUST PROOF SCREWS
Rust proof Stainless Steel Torx® control panel screws give your machines added security and service life!

SEALED HIDDEN LID SWITCH
To help ensure safe operation, Whirlpool® commercial washers feature a lid switch that is truly hidden. Not only does this prevent tampering, it ensures that the washer will not operate when the lid is open.

INDUSTRIAL STRENGTH WATER INLET HOSES
Tested to 1100 PSI!

HIGH EFFICIENCY COMMERCIAL WASHER

CAM2762TQ — 27” 2-Speed Washer with Metercase
Machine Accepts the Following Payment Systems (not included):
